THE BENEFITS.

FINANCE SOLUTIONS

Financing

CAN HELP YOU FOCUS ON YOUR CRITICAL BUSINESS NEEDS, ACCELERATE INNOVATION AND SUPPORT THE CHALLENGES OF MEDICAL DEVICE REPROCESSING.

Inefficiencies in medical device reprocessing can increase costs and resource use within the CSSD and eventually impact patient care.

Fast technologies are needed to reduce the inventory burden and help meet the OR demands.

A process that limits device repair, reduces waste and avoids the need for additional protective measures may promote efficiency and reduce related costs.

STERRAD™ technologies can support the CSSD efficiently addressing such needs.

NOW IS EVEN EASIER
TO GET A **STERRAD™** WITH OUR NEW FINANCE SOLUTIONS

When COULD OUR FINANCE SOLUTIONS BE OF INTEREST FOR YOU?

- If you need extra flexibility to finance your equipment needs
- If you want to keep your financial capacity open for other investments
- If it's easier for you to get an approval via OpEx instead of CapEx
- If your equipment budget for this year has already been spent

Key advantages ALL IN ONE BUDGET FOR THE STERILIZATION PRODUCTS AND THE SERVICE

FLAT COST

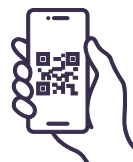

Leasing solutions can cover the cost of the product, potential installation, services, extended warranties, as well as insurance, all in a single and fixed rental.

ONE INVOICE

Ease your administrative tasks - the financing solution includes all costs, even ongoing service and/or maintenance.

PREDICTABLE BUDGET

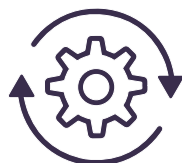

You know in advance when and how much you have to pay over the entire term of the contract.

NO UPFRONT INVESTMENT

This is the "pay as you earn effect", meaning that you pay for that product while you are generating revenue out of its business.

REPLACEMENT & UPGRADE

Leasing is a great way to actively upgrade obsolete equipment to the most current solution, saving expensive maintenance costs and business downtime as a result of breakdown - whilst keeping to the same, regular payment plan.

PROTECT YOUR CREDIT LINES WITH YOUR BANK

Through our financing solutions you do not use your bank credit lines (as it would be the case with a classic loan), which remain available for other investments.

PROTECT YOUR INVESTMENT CAPACITY

You keep your investment capacity for your core activity. The rentals are expenses you can deduct from your revenue and consequently lower the net result. This helps you to pay lower income taxes.

ASPTM
